

4 ORB-One ESE TEST UNIT

GENERAL DESCRIPTIONS

In periodical maintenance process, ESEs needs to be tested and controlled. ORB-One ESE test unit is designed to test if ESE terminals operates at its first operation conditions.

> Fully compatible with standards

> Displaying LED lights

> High Quality Plastic Material

> 10 years Warranty under ORBITAL experience

TECHNICAL CHARACTERISTICS

Impulse Output	2kA peak simulated Lightning impulses
Operating Range	100 meters
Open Circuit Output	55 Volts
Dimensions (mm)	155(D) x 90(H) x 40(W)
Weight	0.50 kg
Mounting/Connecting	Portable
Construction	Polycarbonate enclosure
Water Resistance	IP65
Operating Temperature	-15C to 65C
Colour Option	○ White
Batteries	Single 9W AA battery
